Education

- **Computer Engineering** Sept 2019 - **Present**
Universidad Simón Bolívar (USB) *Caracas, Venezuela*
- **Higher University Technician - Electronic Technology** Sept 2013 - Dic 2018
Universidad Simón Bolívar (USB-SL) *Vargas, Venezuela*

Skills

- **Programming languages:** Python, JavaScript/TypeScript, SQL, C, Assembly(PIC)
- **Software frameworks:** Odoo, FastAPI, Angular, Ionic(Capacitor)
- **Software platform:** GNU/Linux Debian, Arduino, Docker, GIT, Twilio/Segment
- **Microcontrollers:** PICs, ESP8266, ESP32
- **Software/Hardware skills:** GIT, IoT, HTML, CSS
- **Communication protocols:** I²C, SPI, UART, MQTT, Modbus TCP-IP

Work experience

- **ZeBrands — ACLIT** Remote (Full time) México
Backend Engineer *Sept 2021 - **Present***
 - **Development in Frappe Framework - ERPNext:** Programming in Frappe Framework and ERPNext v13.
 - **Implementation and development in Twilio/Segment:** Connection of Sources/Destinations and unification of a single customer profile.
 - **Technologies used:** Python, JavaScript, GIT, REST API, Docker.
- **4Plus Ingenieros y Arquitectos S.L. — 4PIOT S.L.** Remote (Full time) España
IT Collaborator *Jan 2021 - Aug 2022*
 - **Development in Odoo CE:** Programming in Odoo Community Edition v14.
 - **Development in FastAPI:** Programming in FastAPI and connectivity to Odoo.
 - **Development in Angular and NodeJS:** Programming in NodeJS and Angular v11.
 - **Development in PHP:** Programming in PHP v7.
 - **Technologies used:** Python, JavaScript/TypeScript, Odoo, Angular, Linux, GIT, Docker, REST API, MySQL, MongoDB.
- **Yeet C.A.** Remote (Part time) Venezuela
Odoo Developer *Apr 2021 - Aug 2021*
 - **Development in Odoo EE:** Programming in Odoo Enterprise Edition v14.
 - **Technologies used:** Python, JavaScript, GIT, Pycharm, Odoo.sh, REST API.
- **Edooit C.A.** Remote (Full time) Venezuela
Project analyst *Apr 2020 - June 2021*
 - **Development in Odoo CE:** Programming in Odoo Community Edition v11 and v13.
 - **Development in Android:** Programming in android (Ionic v4 and Angular v9).
 - **Technologies used:** Python, JavaScript, GIT, XML, XML-RPC, JSON-RPC, Debian, Virtual env, PostgreSQL.
- **SkyFlot C.A.** On-site - Remote (Full time) Venezuela
Server analyst *Sept 2019 - Apr 2020*
 - **Server Administration:** Maintenance, preventive and corrective diagnosis of GNU/Linux Debian and Ubuntu Servers on AWS. Automatic DB backup. User access and permissions management. Services, processes and ports auditing. Memory and background processes management. Integration and installation of systems between Servers.
 - **Technical Support:** Incident management of equipment and functionality requirements (software, backups, repairs).

- **Technologies used:** Linux, AWS, GIT, Ubuntu, Debian, Python, Bash, DNAT/SNAT, cPanel, iTop, Moodle, Apache, Nginx, PostgreSQL, MySQL, SSH, chroot.

- **Mega Soft Computación C.A.** On-site (Full time) Venezuela
Consultant Programmer II *Apr 2019 - Sept 2019*
 - **Programming of POS:** Programming of POS(Point of Sale) for payment-oriented technologies.
 - **Technologies used:** Java, JavaScript, Spring Boot, Ionic v3, Angular v7, Eclipse IDE, REST API, Postman.
- **Seguricel Telemática C.A.** On-site (Full time) Venezuela
Junior Electronic Technician Developer *Mar 2019 - Apr 2019*
 - **Programming of Microcontrollers:** Firmware development on microcontrollers for residential security devices.
 - **Technologies used:** PICs (Medium/high range), C, Arduino, ESP8266, Mplab X IDE, FreeRTOS.
- **PDVSA La Estancia S.A.** On-site (Part time) Venezuela
Intern *Jan 2017 - Jan 2018*
 - **Guía:** Cultural and patrimonial guide of PDVSA La Estancia Sede la Floresta.

Courses

- **Residential Electrical Installations** Nov 2015 - No Expires
Universidad Simón Bolívar

Awards and Acknowledgments

- **Special mention of "Exceptionally Good" in presentation of internship report:**
 Reverse engineering of the Slave module of the Modbus TCP-IP communication protocol and the Manager of the communication modules implemented in NET-DAS v2.0 for PDVSA INTEVEP, S.A. - (Oct, 2018)
